

# THE UNIVERSITY *of* EDINBURGH

## Dealing with Data Conference 2014 – Call for Papers

**Date:** Tuesday 26<sup>th</sup> August 2014, 9am – 1pm  
Including a formal launch of the University Research Data Management services by the Principal at 11:30am

**Location:** University of Edinburgh (room to be confirmed)

**Themes:**

- Data creation
- Data management planning
- Data visualisation
- Data archiving and sharing
- Open Data
- Data re-use
- Electronic lab books
- Data preservation
- Software preservation
- Non-traditional data types
- Data analysis
- New requirements for Research Data Management
- Data infrastructure
- Linked Data

**Format:** Presentations will be 20 minutes long, with 10 minutes for questions. Depending on numbers, thematic parallel strands may be used. Presentations to be aimed at an academic audience, but from a wide range of disciplines.

### Call for papers:

A half day conference on the subject of 'Dealing with Data' is being run to coincide with the launch of the University of Edinburgh's Research Data Management services that consist of tools and support to deal with the whole lifecycle of research data, from planning and storage, to sharing and archiving.

The conference invites proposals for presentations on any aspect of the challenges and advances in working with data, particularly research data with novel methods of creating, using, storing, visualising or sharing data. A list of themes is given above, although proposals that cover any aspect of working with research data are welcome.

Please send proposals (2 sides of A4 max) to Stuart Lewis ([stuart.lewis@ed.ac.uk](mailto:stuart.lewis@ed.ac.uk)) before Friday 25<sup>th</sup> July 2014. Papers will be reviewed and the programme compiled by the 8<sup>th</sup> August.
